Research Paper Writing & Project Making

12-13 February 2024

Overview

A two days workshop on Research Paper Writing is designed to enable researchers developing their knowledge and skill through an extensive exposure on literature review, formulation of research question, selecting appropriate study design, sample size, data management, statistical methods as well as grant writing. The main objective of workshop is to cover the basics of research paper writing and to highlight the steps involved in writing a research paper and securing publication in a reputed journal. The workshop focuses on the formulation of research questions, hypotheses, and literature review. It also aims to make the participants aware of the use of referencing tools, make them aware of the predatory journals, and highlight the importance of research ethics. It also aims to provide participants with solutions to research challenges.
